Skills

- Backend architecture
- Cloud deployment
- Database management
- Git & version control
- Node.js & APIs
- Performance optimization
- Problem solving
- React & Next.js
- Responsive interfaces
- REST API integration
- Scalable systems
- Team collaboration
- Technical documentation
- TypeScript

Languages

- English**
Professional working proficiency
- French**
Native or bilingual proficiency

About

I'm a full stack developer with experience building web applications focused on performance, scalability, and usability. I specialize in creating responsive frontend interfaces, developing reliable backend systems, and working across the full product development process using modern technologies and clean development practices.

Experience

Senior Full Stack Developer

Jan 2025 – Present

Northstack ▪ Full-Time

Leading full-stack development for scalable web applications and reliable digital products across teams.

- Improved platform performance and stability
- Built frontend and backend product features
- Collaborated with product and engineering teams

Full Stack Developer

Jan 2023 – Dec 2024

Northstack ▪ Full-Time

Worked on responsive web applications, API integrations, and backend systems using modern frameworks.

Frontend Developer

Apr 2021 – Dec 2022

Pixelbase ▪ Full-Time

Developed responsive user interfaces and interactive web experiences for client and internal digital products, focusing on usability, accessibility, and performance.

Junior Web Developer

Aug 2020 – May 2021

CloudCore ▪ Part-Time

Supported frontend and backend development tasks while contributing to modern web projects, maintaining internal systems, and improving workflow efficiency.

- Assisted in developing responsive website interfaces
- Worked with REST APIs and backend integrations

Education

Master of Software Engineering

2018 – 2020

Texas State University

Specialized in scalable systems, application architecture, and advanced modern software development.

Bachelor of Computer Science

2014 – 2018

University of Houston

Focused on software engineering, web development, database systems, and application development.
